

## Nathan Reid – Environmental/Permitting

Mr. Reid is a graduate of Marietta College with a BS in Environmental Science. He began his career in 1998 with Columbia Gas Transmission serving in various engineering and permitting capacities. His duties included providing environmental permitting services for pipeline construction projects throughout Ohio and Kentucky, performing wetland delineations, coordinating with various local, state and federal agencies and ensuring permit compliance during construction. Mr. Reid also performed pipeline construction inspection services for Columbia on a contract basis. Most recently, Mr. Reid was an Entitlements Manager with an international architectural and engineering firm. In this position he was responsible for managing the permitting process for commercial development projects from initial due diligence through construction. This included performing site investigations, representing clients at public hearings, negotiating approvals with various agencies and coordinating with architectural and engineering teams to complete projects on time and within budget. Mr. Reid joined the UTI team in 2008.
